

Quality Policy Statement

Quality Policy Statement

KH Engineering Services Limited recognises that Quality, Health & Safety, and Environmental management systems for both the company's rail and non-rail operations are an integral part of the business.

The company views these as primary tools to good business, in adopting the appropriate quality systems we will achieve profitability and long-term growth, and by meeting the requirements of our repeat and new business customers across all the markets in which we operate.

The Company Quality Policy calls for continuous improvement in its quality management activities and business will be conducted according to the following principals:

We will:-

- Comply with all applicable statutory laws and regulations, and voluntary obligations.
- Continually improve our commercial and technical performance.
- Develop staff potential through career opportunities and training.
- Follow a concept of continuous improvement and make best use of its management resources in all quality matters.
- Communicate our quality objectives and its performance against these objectives throughout the Company and to interested parties.
- Promote a real commitment to providing a quality product, successful handover and aftercare.
- Work closely with our Customers and Suppliers to establish the highest quality standards.
- Have a real understanding of our customers and their business requirements.
- Strengthen working relationships both internally and externally.
- Procure work not solely on price but by offering innovation and added value.

Everyone working for K H Engineering has responsibility for ensuring that the quality of their own work, and the work of the people they supervise, meets the minimum requirements set out in the company's management system and project management plans.

Signed:

Mr. Darren Bates

Date: 9th September 2020

Managing Director

The Managing Director shall review and update this policy statement whenever necessary and as a minimum will review its contents annually.
